

TESTIMONIALS

Brad L. - Detroit, MI.

I purchased my adult site from Jay Servidio 9 months and my casino site 6 months ago. I've been pleased with both. I looked around at other companies for a few months before I settled on Teleteria. I had met Jay Servidio in person at Vegas at one of the shows.

thought Jay Servidio presented himself in a professional and passionate manner. After I agreed to purchase the adult site, I found the message boards. So I put a hold on things for a short time until I could sort things out. I asked myself a couple of questions. 1) If a guy was as crooked as they said Jay Servidio was, then how the heck did he stay in business? 2) Who were the people who were complaining about Jay Servidio? 3) Why did they spend so much valuable time on the boards badmouthing if they had websites/businesses to run? It didn't take long to figure out what was going on. I started conversing with some of them and I found out that the people who complained the most and loudest were actually the same person and who was in competition with Jay Servidio. They spend so much time badmouthing because the more they do, the more hesitation it provides allowing him to move in and take business. After a few moments of phone conversation, I figured out that Jay Servidio was not crooked and that I should give him a chance.

I am glad I did give him that chance. I'm not making thousands of dollars YET but I know I will be.

The results to date are better than what Jay Servidio promised - he tends to be on the conservative side I think.

Jay Servidio is passionate about his business and because of this I can always reach him and/or one of his staff either by phone or by email. I don't think they have a life outside of work because there's always Jay Servidio or someone on the staff to answer my questions day or night!

I hope this helps. I respect Jay Servidio and he has done right by me.

Tonya V. - Clarksville, KY.

I met Jay Servidio back in 1998. Actually I haven't met him but spoke with him on the phone because I was in a situation I couldn't get out of financially. Jay Servidio didn't know me from any other person he would talk to on the street but he took the time to hear me out and help me.

Most people would have tried to sell me a website business and even though that is the business Jay Servidio is in, he didn't. Jay Servidio listened to what I had to say, heard what I needed, and then proceeded to help me network with some people he knew.

I couldn't go into the adult entertainment business because of the children I had at home with me and Jay knew it. Instead he steered me towards a couple of companies he knew well who hired me to do their marketing work.

I have stayed in touch with Jay Servidio over the years and my respect for him continues to grow. Jay Servidio is passionate about his company but he takes the time to listen and hear what is being said. He takes everything to heart and helps you make the decision that best suits YOU not him!

Just last year I purchased my first website business and yes, it is doing very well! I followed Jay Servidio's advice concerning my first adult website, let his class A team design me a site and his marketing team gave me advice on how to market successfully in the adult entertainment world. To date, I've brought in \$18,000! I know that more I market, the more I work on it, the more money I will make!

Rachel M. - Buffalo, NY.

I'm one of those that posted negative comments on the boards originally. My site didn't go anywhere. No hits, no clients, nothing. I demanded my money back well after a reasonable amount of time. Jay Servidio and I had words. However, I have to say Jay Servidio is a persistent person when it comes to business.

He saw a need for his clients and brought in a marketing team to help the clients successfully market their Teleteria designed adult turn-key sites. After he got the marketing team into place, Jay Servidio had them contact me. I wasn't overly polite but they calmly and diligently worked with me too see what was needed.

I'm glad they did. I had already paid for the site and since their services were free I didn't have anything to lose except my pride. I have since gone back and taken down the negative posts. Jay Servidio knows his stuff and I wish I had listened to him back then rather than expecting to hit it big the first month or two. That's just crazy. One has to work for everything – nothing in this life is free or easy.

If I had it to do all over again, I would still go with Jay Servidio and Teleteria BUT I would listen to them and put in the effort that was needed to be done on marketing my site.

David W. - Los Angeles, CA.

Hi! I bought my casino site 2 months ago from Jay Servidio. I've been marketing it faithfully every day. I was getting real tired of reciprocal linking and submitting classified ads on line up until Monday when I checked my site and saw that on Saturday I made \$1150!

I am so excited now that I can't wait to keep plugging away on the reciprocal linking and start focusing more on marketing my site! This will be a great Christmas for me! I'm going to use my money to fly home and surprise my parents.

Without the help Jay Servidio's marketing team and designers gave me, I wouldn't have made a dime! Thanks Jay!!!

Missy C. - Cambridge, MA.

Some people expect to get the world for nothing. That isn't the way it is. Turn-key adult sites are no different and Jay Servidio will tell you the truth about them because he knows what he's talking about. With Turn-key sites you don't have to worry about the mechanisms or making it run but you do have to market your site. Anyone who tells you different isn't playing with a full deck or they're just plain lying to you!

I talked with Jay Servidio in Florida last year when he was doing a trade show. He laid it on the line for me – market your site and you'll make money. Men and women love porn! I went on the message boards and found that some idiots there were saying an adult turn-key site should run itself you shouldn't have to do anything at all with it. Well, that's not true.

As with any business you got to sell your product and if you don't sell your product you are not going to make any money. So when Jay Servidio told me what I needed to do to make my adult site successful, I did it. It took me 3-4 months before I saw any activity but I did see clients coming in! After that, it's been smooth sailing.

I am looking at setting up a casino site and two more adult sites from Jay Servidio by the first of the year. I do this, me and the Missus can retire and count our money! Thanks to common sense and Jay Servidio!

Orville R. - Tampa, FL.

I ran into some financial difficulties last semester and I looked into getting a site from Teleteria. I was hoping to do something like this from my room and not have to worry about workstudy so I could focus on my studies more.

Just as I was about to hand over my money to Jay Servidio, I saw the boards. They are frightening aren't they? Take a deep breathe, that's what I had to do. And read them real careful like. I actually got two of them to call me. I found out they were competitors! Makes one wonder just how much stock to put into

what they were saying. I expressed my concern to Jay Servidio. He was angry of course but not at me. He took time to talk with me about the issues they brought up on the board. They made sense. To further ease my mind, Jay Servidio provided me with email addresses of references for him. I contacted them and one even spoke with me on the phone. I mean, how many people expect to have a baby, let it grow up and expect it to grow up into a healthy, happy, intelligent child? NONE! Business is like a baby, you got to nurture it and work with it as it grows. From what I understand from one of the guys that posts a lot is nothing was done with his site.

Jay Servidio's team put it together, got it up on the internet and then that was it. HE didn't do anything to get his site name out there. No marketing strategies other than the search engine package. I guess he thought it would grow up to be a good healthy website but like a kid it needed to be nurtured and grown. I hope this helps, I'm very pleased with my website. Anything I want to know or need to know, Jay Servidio and his team are there for me. That's not a common thing now days in any business!

Jeff P. - Los Angeles, CA.

I was up late one night and caught the infomercial that Jay Servidio had on. It sounded too good to be true! The more I watched, the more excited I became. I wrote his number down and the next day I called him. I bought an adult website from him and it was up and running within a week! The content, design, everything was great! I could tell Jay Servidio knew what he was doing when I saw the infomercial but I had no idea! I've had the site now for three months and like Jay Servidio told me, it's starting to take off.

Everything he told me is coming true. I read some negative posts about Jay Servidio. I can only guess what those one or two people didn't do and that was to promote their site or follow the instructions of Jay Servidio's marketing team. I did and it's working out awesome!

Bob D. - Odessa, TX.

I purchased my site from Jay Servidio about eight years ago. I've been marketing my site since day one and it's now one of the most recognized adult websites on the internet. In the last eight years, I have purchased six additional sites. Each one is doing well.

At the time I bought the original site, Jay Servidio was just getting into the business. I've kept in touch with Jay Servidio and been able to take advantage of his top notch services even now for each additional site I bought.

I caught his infomercial the other night. His business is growing and his customers are growing as well. I know when I first started things were newer and harder to get started. Now, it's much easier to get a site going. Especially if you follow the advice that Jay Servidio has to offer.

I have been able to set aside the profits of each site for my family. Emergencies that cause us to scramble for money is a thing of the past. It's because I contacted Jay Servidio, made the business decision to invest and then did all the work that each site needed to be successful. Now, if there is an emergency we go to the bank and draw the money out without having to beg, borrow or steal! All thanks to Jay Servidio and Teleteria!

Eric C. - New York, NY.

I test drove an adult site for Jay Servidio back in 1995 when he first started Teleteria. Jay Servidio had an office in his home and then over time opened an office in New York. Although porn was just getting off the ground in 1995 it took hard work and lots of patience.

Jay Servidio was there the entire time helping me, advising me, and helping me make this site work. Because of our hard work, the site took off and it's still doing excellent. Anyone looking for an investment to make your life easier down the road, this is the business to get into and the man to get it down for you. Jay Servidio is the most knowledgeable man in the business.

If you need extra money, want to invest, or spend all your time on the computer anyway - invest in an adult site from Jay Servidio like I did and watch it take off.

Donna J. - Sitka, AK.

Jay Servidio has always regarded customer service as one of his important values. In addition to supporting his clients in marketing and technical support, his web design is great too! Jay Servidio empowers his customers through dynamite website designs, customer support and marketing tools that put other companies to shame.

Jay Servidio uses only the newest technologies and helps his customers personalize their site to their desires as well as keeping them on track with what's selling. Jay Servidio helped me get started fifteen years ago. I still keep in touch with him and benefit from his knowledge and talent every time I speak with him.

Anyone who is looking to get into the adult biz should pick up the phone and call Jay Servidio. Calling anyone else would be the biggest mistake you could make.

Mike L. - Lubbock, TX.

People looking to get into the adult business only have one place to call – Jay Servidio. Jay Servidio has been and continues to be a leader in the adult business with his company Teleteria.

I bought my site from him after watching his infomercial and it's the best investment I have ever made. Not only do I have a top of the line site designed by the leaders in the business, but I have access to great support. The marketing and customer service departments are there practically 24/7!

I relied on Jay Servidio to guide me in my decision making process on the website and he delivered. I am very pleased as are my customers. It has taken no time at all to begin making money. Just time and patience is all it will take to bring in \$25,000 for this partial year.

Thanks Jay Servidio!

Ted S. - Hobbs, NM.

My grandfather told me once, "never ever take a move back in a Chess game." Taking that move back leaves you vulnerable and shows you as weak. When I approached Jay Servidio on purchasing an adult website, I remembered that piece of advice and plowed ahead and never looked back.

I worked hard over the last eight plus years and can't complain. The one thing I know for certain is Jay Servidio knows what he's talking about and as long as I follow his advice seriously then I can't help but succeed.

I am pleased with how my site has turned out and the number of customers I have been able to provide a service to. I have confidence that whatever Jay Servidio does, he will always be the best person to do business with in this line of work.

Ari S. - Roswell, GA.

Jay Servidio has had a dramatic effect on the Web. His adult web design business provides every day men and women with opportunities to run their own business from home. The American dream! No boss, no work schedule, and no leaving home except for fun. I bought my site from Jay Servidio back in 1999.

Jay Servidio provides his consumers with education on how to run their website, market it and manage it. Unlike other companies who sell you a site and leave you hanging in the wind to fail. Jay Servidio provides you with the tools you need to make your business successful. It's up to you whether you succeed or fail.

Once he turns the site over to you, it's yours. He provides you monthly with attractive content that will drive your website into more business. Jay Servidio sold me a site, gave me what I needed and then

allowed me to work at my speed. Whenever I had questions, Jay Servidio or his team would research what I was doing and give me solid guidance on how to proceed. I made with all my sites well over \$140,000.

Jules P. - Hutchinson, KS.

I bought two adult sites from Jay Servidio last Christmas (2004). I was impressed with the design of the site and setting up the billing process. I noticed quickly that customer service is very important to Jay Servidio. This is apparent whenever you need assistance Jay's customer service is on call 24/7.

I have had a couple of problems with my site – of course, they were problems I created – but Jay Servidio's customer service team walked me through correcting the problem and when I still couldn't fix the problem on my own, they did it for me.

You want to make money? You want to make an investment that will pay off? Then you need to check out Jay Servidio and Teleteria because they are the best in the biz! In the last year I have brought in \$24,000.

Giles H. - Santa Barbara, CA.

I have insomnia frequently and as a result of a late night search for sleep, I saw Jay Servidio on an infomercial. After watching him on tv that night, I purchased two adult sites.

From what I saw on the infomercial and in speaking with Jay Servidio both on the phone and on line, he is committed to the success of his clients. My two sites, from a design perspective, are attractive and brings in the type of clients I am looking to bring in. Jay Servidio is knowledgeable about the adult entertainment world as well as the federal rules and regulations.

It is my opinion that Jay Servidio offers a consistency in service and delivers on his designs and promises. Jay Servidio knows his clients well and knows how to teach them to bring in the type of clients they need to make their websites successful. I trust Jay Servidio to steer me in the right direction.

Liz F. - Moline, IL.

Thirteen years ago I purchased one adult site from Jay Servidio. Like building blocks I began to add more sites to my portfolio. Throughout the years Jay Servidio has provided a high and intense consistency of customer service.

Jay Servidio's web site designs are not only practical but provides individual owners with control over their own sites. It is up to the owners to educate themselves on the software needed to make changes to their sites.

Although it should be up to the owners to also market their own site, Jay Servidio has set up a marketing team that provides his clients with information and advice to make their sites among the most successful. Jay Servidio provides you with a starting point and allows you to grow at your own pace.

Jay Servidio is well aware of on line federal rules and regulations in the adult industry. Jay Servidio is always seeking ways to improve customer service and providing his clients with the necessary tools to be successful. I'm pleased to have worked with Jay Servidio and his Teleteria team over the years.

I have made over \$125,000 since I purchased my site.

Marcus T. - Chesterfield, MO.

I just wanted to say thanks to Jay Servidio. I have brought in \$43,000 this year on my casino site because I applied all the marketing concepts Jay Servidio told me about. I thought I knew everything there was to know about marketing but my sales increased dramatically after I started to listen to what Jay Servidio was telling me. If you're interested in running a successful business, the talk with Jay Servidio and then LISTEN to what he has to say.

I went from bringing in \$10,000 to \$43,000 practically overnight! Ok, it took a few weeks to a month but damn you can't go wrong if you follow the advice.

Jay Servidio is the best chance I took! I would do it again and again and will in a short while. Can't get enough of a good thing!

Ben E. - Valentine, NE.

Simply amazing! I believe this is going to be the single best investment I have ever made. Jay Servidio is the ultimate Adult Entertainment Guru! I can honestly say that Jay Servidio provides his clients with top of the line websites.

I used the methods Jay Servidio told me to use to market my site. My sales are growing daily! I can only see one way ahead and that is up!! It's amazing how one small investment of my time, money and research has paid off!

My site brought in a profit of \$23,679 in one year alone! Even my wife couldn't believe it. She was dead set against me investing in a site but now she has plans on how we're going to spend our profit next year!

I can't complain, Jay Servidio delivered on what he sold and continues to deliver daily.

Patricia M. - Courtenay, NO.

I was looking seriously as working from home. Being a stay at home mom gets to be real boring but it's worse after your kids start school and no longer need you during the day. So I did some searching around and found Teleteria. I saw where Jay Servidio was going to be speaking in New Orleans soon so I picked up the phone and talked with Jay Servidio.

After a period of time spent researching and reading different things on a variety of message boards, I took the plunge and bought an adult site from Jay Servidio. The funny thing about those message boards, I have dealt with Jay Servidio on an array of things and not once has he done anything out of line. He's a good business man with a strong head to succeed. And when his clients succeed, he succeeds.

Jay Servidio saved me hundreds of hours of experimenting and learning the hard way in marketing my site. He gave me advice and a plan to follow. I followed everything to a T and bam! I'm doing excellent!

Best deal I have ever made. My profit is \$34,673. My kids are happy because I can be there for them when they need me to be and when they don't I'm making money! Thanks Jay Servidio!

Charles M. - Evansville, IN.

I didn't know the first thing about starting an adult site but Jay Servidio gave me what I needed to be successful. When I needed help, Jay Servidio was there to help me. I don't think there is another adult turnkey design business out there that is in Jay Servidio's league! Jay Servidio is upstanding and delivers on his promises!

It's totally unbelievable! Now that I know how to market my site the right way, I will be purchasing more sites. I can think of lots of ways to spend \$41,734 but I can think of more ways to spend double and even triple that!

Sometimes you're lucky enough to meet and learn from people who you know will change your life. Jay Servidio is one of them. The quantity and quality of design and customer service Jay Servidio provides is exceptional. You can't compare a site designed by Teleteria to any other because no one is in the same league as Jay Servidio.

Keep up the good work Jay Servidio.

Dave K. - Toronto, Canada.

I was a test site when Jay Servidio first started his Teleteria business. Since then, Jay Servidio is a name familiar to many on the internet and in the adult entertainment world. Jay Servidio has built a high profile and a highly profitable business designing adult websites. Thankfully, his interest in his clients doesn't stop there. Jay Servidio continues to work with each client well after the bill is paid. I spent hours on the phone with his marketing department to make sure I had a clear understanding of all the resources available to me. So if you're thinking of purchasing an adult or casino website, Jay Servidio is the guy to talk with for turning a small investment into a major and successful business. It is well worth the investment!

The adult site I first got from Jay Servidio has increased to include a total of five adult sites and one casino site. I make enough money to send two kids through school and a trust for each of my kids.

Jay Servidio has gone from a business acquaintance to a good friend over the years. And just like the dedicated business man, he is equally a good dedicated friend that you can count on!

Joe B. - Brunswick, GA.

Jay Servidio gave me a new way of looking at investments – I mean how much fun can you have with a CD? Jay Servidio also gave me a new way of looking at marketing and site promotion. Sales exploded!

I have gotten at least 50 times the value out of my site already! I left my corporate job and am now working full time on marketing my site. Jay Servidio provided me with several different ideas that I hadn't thought of before.

The money is awesome. I like working at home and being free to travel since my new job can travel with me as well. I own an RV and take it out traveling frequently. A little while each night I work on checking out the marketing plan I have implemented and do what needs to be done to catch up or take care of. After those few minutes, I'm on my own to play. Jay Servidio told me that's how it could be and Jay Servidio was right!

After three years a salary of \$86,921 is enough to allow me to do what I want without restrictions! Many thanks to Jay Servidio for all his help and guidance!

Robert D. - Palm Springs, CA.

I bought a site through another company about two years ago. I saw the infomercial on tv a few months back and I contacted Jay Servidio. I told him about my website failure. Jay Servidio encouraged me to check out his business, talk with his clients and then call him back.

I did just that and within a week my old site was revamped. I worked with Jay's team to properly market it. I have already placed an order for another site to be designed for me by Jay Servidio's design team. I can't fail!

A businessman like Jay Servidio is a rare find but one worth keeping in touch with as I have. My site was in the red but after working with Jay Servidio I am now in the black! A few more months of hard work and it'll be the investment I thought it would be originally. Fortunately for me, I found Jay Servidio and trusted him.

Thanks again Jay!

Mark L. - Battle Creek, MI.

I was going to be losing my home when I first found Jay Servidio on line. However, after buying one site and focusing all my time and energy on it, I am no longer losing my home but am way ahead on the bills!

After a short period of time Jay Servidio and Teleteria delivered on a great site and with the marketing plan his team issued to me I am doing awesome!

I'll be able to pay my home off within a year and be caught up on a lot of my other bills that I had let go. Things around the house are much better between my wife and me. A steady income of \$4,500 plus a month has been a life saver! Our combined incomes and the income from my site allowed us to do so much. Teleteria is the web design company of choice for me!

Our site income increases each month. In a short while we'll be able to pay everything off and begin to invest in other sites as well. I'll invest in Jay Servidio again and again!

Ed J. - Montreal, Canada.

I had the privilege of hearing Jay Servidio speak in Montreal about web design and the adult entertainment industry. Jay Servidio is committed to helping his clients get and stay secure in the adult entertainment business. Working with Jay Servidio and his talented team of designers has been educational! What I thought would be good design decisions they walked me through my choices and helped me make educated decisions that would make my website not only attractive but profitable.

I purchased my site from Jay Servidio six years ago and I can't be happier with my decision! My profit in one year is over 92,746.

The design, marketing plans, and the customer service makes Jay Servidio well known. I highly recommend doing business with Jay Servidio, he is a man you can rely on.

Ian D. - London, England.

I have to give thanks to Jay Servidio for helping to get our website current and state of the art. We bought a site from another company who had written bad reviews about Jay Servidio. What a mistake! That company was horrible. Jay Servidio worked with us to get the site fixed and workable. Teleteria is a wealth of talent.

Our initial investment was twice what Jay Servidio was asking for a new site. Not only was our site design crappy by the other company but we got nothing else. Jay Servidio corrected the website design for us, gave us incredible marketing advice and excellent customer service for a small fee. The talent and services that Jay Servidio sells is well worth the investment.

Our site came alive after the redesign and became a profit maker. The speed and skill at which this was accomplished was exceptional.

We won't be making that mistake again. We are sold on Jay Servidio and his company, Teleteria. Why go any where else if you can get the best at one place? Teleteria is that place!

Randy S. - Bradenton, FL.

I saw Jay Servidio speak in Orlando, Florida about his website design company. I'm glad I sat in on the session because he was able to help me out of a difficult situation! I had stupidly gone with a different turnkey company and suffered a poor design, content, and everything else.

Jay Servidio and Teleteria did a great job of rebuilding our website and correcting all the broken links and out of date pages that were improperly placed in our site. We're getting compliments from our old clients commenting that the new design provides them with a more satisfying experience.

The work that Jay Servidio did on our website has made a huge difference in my business profit. All the little details that the other company screwed up were fixed by Teleteria making my site all that it was meant to be and do! Pictures and videos are great and the quality is amazing. To say I'm impressed with the quality work that Teleteria did would be an understatement.

The content that changes monthly is impressive and enjoyed by my clients. The original web designer was extremely ineffective and Jay Servidio opened my eyes wide! Thanks Jay Servidio for changing a losing investment into a highly profitable one in such a short time!

Saul J. - Prague.

Why work with a company without proven results? Most webmasters don't know how to sell or turn a site into a profit making business. However, Jay Servidio does! Most companies are concerned with image rather than results.

Jay Servidio is more concerned with results and image. You can have an awesome website but without proper marketing no one will ever see it. Following the marketing advice of Jay Servidio will allow your website to have the full exposure it needs to be successful.

Jay Servidio knows how to create the web strategies, design features and content needed to draw in clients for your website and keep them coming back for more! All you need to do is implement his marketing ideas and be persistent! Your enthusiasm for your website designed by Jay Servidio's Teleteria will help keep the money rolling in!

Teleteria's web development and marketing services were again excellent as usual! I couldn't be more pleased with my website. Hearing Jay Servidio speak in Prague was the best thing that has happened to me!

Sally N. - Riverton, WY.

I am truly pleased with the web site developed by Jay Servidio and the people at Teletria. From my first meeting with Jay Servidio I found that everyone at Teleteria was professional, helpful and courteous in the planning and design of my website. Jay Servidio took the time to answer all my questions.

Furthermore, Jay Servidio and the design staff at Teleteria gave us suggestions and recommendations that really made our website outstanding. Jay Servidio explained the time process involved, delivery, and was very responsive to our questions on the progress of our site.

I will tell you that we are extremely pleased with our interaction with Jay Servidio and Teleteria. I look forward to working with Jay Servidio again.

Jeff P. - Durham, NC.

I have never met anyone who has the passion and desire to see his clients satisfied as Jay Servidio. His team at Teleteria strives to provide his clients with sites that are intriguing and exciting. David is excellent at designing high quality sites and Jay Servidio is skilled in recognizing true talent.

Jay Servidio has taken Teleteria boldly into the world of porn and made it a name recognized and valued. I highly recommend Jay Servidio and Teleteria to everyone. I heard Jay Servidio speak in Miami and New York City and each time I was captivated by his ability to capture the audience and inform them in the ways of marketing and making your website successful.

My two Teleteria designed sites are successful because I followed the step by step plan that Jay Servidio's marketing department laid out for me. Making \$34,000 in my first year has been very satisfying!

Clyde O. - New York, NY.

I have worked in the corporate world for many years. One day I picked up the Wall Street Journal and found a piece about Jay Servidio. I was intrigued by what I had read and decided that if I could get out of the corporate dog eat dog world and still make money I'd do it in a heart beat!

The article in the Wall Street Journal provided an insight into the world of porn and the role Jay Servidio plays. I picked up the phone and contacted Jay Servidio. Over dinner a few nights later I laid everything out on the table that I wanted to see Jay Servidio and his team at Teleteria do for me.

Not only did Teleteria and Jay Servidio complete the task that I had laid before them but they did it in a professional manner. I no longer work in the corporate business world; instead I spend my work day at home marketing my site and relaxing.

If I had it to do over again, I'd invest in more than one site in the beginning instead of taking three years to own three different sites.

Tim V. - Coos Bay, OR.

I found Jay Servidio in an infomercial one night while I was in Texas at a conference. I was impressed with Jay Servidio's ability to speak about his company, Teleteria, with the passion of a man driven by a true desire to provide the best customer service possible.

Jay Servidio covered the fundamentals to owning a successful website and how to build the website business into a highly valuable franchise. Operating within my budget, Teleteria provided me with a high quality website site consisting of porn that sells.

Staff of Teleteria are available around the clock and have been helpful and always willing to answer any question I have regardless of the time of day or night. The marketing plan laid out by Jay Servidio is outstanding and by following it strictly I have successfully sold enough memberships to make up my initial investment in only a few short months. I am very pleased with the value I received from Teleteria and Jay Servidio.

Making \$4600 after only three months of marketing my site has been rewarding. I know that my site will bring in record amounts of subscribers by the end of the year because I am following the marketing plan and also researching other options.

Jay Servidio and Teleteria are an excellent resource that should be utilized fully!

Patty W. - New York, NY.

Jay Servidio of Teleteria launched my web site ten days after our initial contact. These ten days were spent gathering information from me on what I wanted and what he suggested. It was a fruitful exchange.

This adult Web site was to help supplement my income. In order to supplement my income I had to market my site successfully. The design of the site and the finished product was excellent and well worth my initial investment. I knew it would take several months of constant and steady involvement in marketing it for it to be successful. I knew if this venture failed I would have no one to blame by myself.

I am very pleased with my porn site. I am very impressed with how Jay Servidio listened to what I wanted to do and then presented me with what could be done. The design team Jay Servidio has is excellent and his marketing team is diverse and well skilled also.

Jay Servidio is definitely an excellent person to work with and I know Teleteria will continue to grow because of Jay's talent of bringing together the best.

My site has brought in over \$46,000 in the two years I've had it. I am apt to make nearly \$62,000 this year. Marketing is the key and fortunately, Jay Servidio knows this and passes it on to his clients.

George B. - Orlando, FL.

I recently purchased a casino business from Jay Servidio. One of the first orders of business was to develop a professional looking and easy to navigate website. I had a pretty good idea of what the site should contain, but very little knowledge of the technical side of designing and running it.

I first found out about Jay Servidio in the Wall Street Journal. I picked up the phone and gave Jay Servidio a call. We met and discussed the project. I was impressed with Jay's willingness to design a site that met all my needs. His flexibility, advice and technical ability provided me with a site that has completely satisfied all my needs.

Based on the number of compliments I have received about my site, and my complete satisfaction with it, I would highly recommend Teleteria and Jay Servidio to everyone looking to start their own on-line casino business.

Just this past weekend I made over \$4,000! Where else can you make that kind of money?

Clark F. - Chicago, IL.

Jay Servidio has been professional and very efficient in designing my adult turn-key website. He is good at taking into account my ideas as well as coming up with better ideas that are effective and attractive.

My website is high maintenance as it is always growing and changing as I find new things to add to it. Jay Servidio and his team of designers have been most helpful and very accurate in terms of estimates and billing for my extra needs. Teleteria's support team also takes care of details that I wish to not be bothered with and that's just good customer service.

My website has been a great money maker, just as I had hoped it would be. After a short three years of owning my site I have made enough money to pay off my mortgage, and have a two week vacation in the Bahamas without cutting into my bill paying. Just in the three years, my profit from my one porn site has been over \$92,000. I'm sure that I will purchase another adult site soon and a casino site as well. I will always have a website and Jay Servidio will always be the man I go to for design, advice, and support. Thanks Jay, for everything!

I'm really glad I caught his infomercial I saw. I live in Chicago and I have to say Jay Servidio made me an awesome part-time business!

Roger D. - Lime Rock, RI.

I've had other people on the chat boards offer their services to me for website design and adult turn-keys but Jay Servidio seemed to be the guy that wasn't all talk. I researched Jay Servidio and Teleteria extensively. There were bad postings about Servidio and Teleteria but I found them to be highly incorrect! It is sad when someone has to resort to bad mouthing a company just so they can profit from it. That's what I found out was happening on the chat boards.

So far my two adult turn-key websites have done nothing but make me a profit each month. All I had to do was market the site and work at it. Sure it's boring work but what isn't? From the first site he put up back in 1999 for me, until now, Jay Servidio has done a great job and continues to. Jay Servidio and his team at Teleteria actually listen to my ideas and helps bring them to life, even though his ideas are better, Servidio works with me but I guess that's why he is the pro at it and I'm not.

I've had a lot of compliments on the site from customers who keep coming back each month! I'm glad they do because I love raking in the money!

Thanks Jay Servidio! I appreciate your business and all your help!

Bill L. - Hattiesburg, MS.

Need money? Want to have fun? What can a guy do that involves money, hot women, fun, sex, and naked chicks? Buy an adult turn-key site from Jay Servidio is what you can do. I caught his infomercial on TV a few months back and I'm glad I did!

I picked up the phone and called Jay Servidio around 10 PM one night. He answered the phone! What kind of guy works at 10 PM on a Sunday night? A professional, hard working one! We talked for about 30 minutes, him patiently answering my questions and me asking stupid questions.

Sure I thought he was full of bull shit but Jay Servidio proved me wrong! I couldn't believe the amount of money I have brought in since I got the site. Just in a short span of four months I have made back \$5600! I had to market my site like crazy but it has been worth it!

One stop shopping is what Teleteria is! I call them for web design, content, marketing, and technical support! Each employee in these areas have proven to be highly smart and great to talk with on the phone.

Would I do it again? Hell yes! I have another \$5600 just itching to make me more money!

Scott H. - Miami, FL.

I have found Jay Servidio to be extremely helpful in the creation of three separate websites. Not only were they reliable and fast but very knowledgeable as well. Being involved in the adult entertainment world as I have become, I know that one thing remains constant and that is the desire to look at porn. I contacted Jay Servidio after seeing him on TV. He answered my call promptly and had answers for some difficult questions I asked him. I only do business with upfront and honest people. I found that Jay Servidio has been and continues to be that way. Jay Servidio has a competent and reliable team of employees at Teleteria. The designer I worked with has been awesome in the way he responds quickly to my needs and questions as well as the customer support.

Any question I have had has been answered quickly and with the precision I have come to expect. Given my busy schedule each person I have dealt with at Teleteria, including Jay Servidio, has been more helpful than I would have thought possible. I thought customer service had gone out the window but it is alive and doing well at Teleteria.

My websites have grown so quickly that I have had to hire someone to help me manage them until I retire next year. I expected a good response but so far with the marketing plan that I have set into place with the guidance of Teleteria and Jay Servidio things have taken off quickly and profitably. My employee has her hands full daily just to meet the marketing plan that is enabling me to grow quickly. I should meet and pass the conservative profit margin Jay Servidio told me to expect. My sites should gross around \$20,000 each by the end of their first year.

I was up late one night surfing the TV when I settled on an infomercial. It was for Teleteria and Jay Servidio. I thought I'd let the TV rest there while I went in and picked up another soda, little did I know that I would soon be glued to the TV set!

I have a problem when it comes to leaving my house; I freeze up so finding a job that allows me to work from home has been tough. Seeing that infomercial Servidio had on "Own your own Adult turnkey website" was just what I was looking for!

Making money, working from home and not having to worry about making the bills – this was the answer! I contacted Servidio the next morning and we talked. The next day we talked again. I settled on one casino and one adult site.

I had my doubts but they were all about me. I did some research and some comparison shopping and found Servidio offered the best package. Sure it was a little more than I wanted to pay but it has been well worth it. The designers have been so patient with me as I make small changes and their marketing department has put me on a path of successfully marketing my sites. Not to mention, the general office staff have been wonderfully customer service friendly. You don't get that hardly anywhere now days!

I've had my sites now for 7 months and the traffic I am getting is awesome! This past weekend my casino site brought in \$4,720 and for the month I made well over \$23,000!

The adult site is doing well also. I am up to 286 members and my list continues to grow daily. Can't beat that! Thanks Jay Servidio!

My wife and I needed to make extra money. Our 24 year old daughter had just moved back in with us and brought her twin girls. No income came with her. Having moved from Minnesota down to Texas the girls weren't used to the difference in climate. So my wife and I were up late frequently with the girls while my daughter worked a night shift.

We were rocking the girls when the Jay Servidio and Teleteria infomercial came on. Seems someone heard our prayers! We contacted Jay Servidio and by the end of the conversation we were purchasing two casino sites. Gambling is a big past-time down here in Texas!

It has been a great experience for us. We were given two first class casino sites that in one weekend after only 6 months of marketing brought in \$3,198! After the huge learning curve we had on marketing our site we were deeply appreciative of the fact that we weren't in this alone. Jay Servidio had his complete staff coaching us.

Knowing how nervous we were, follow-up calls and emails were plentiful. I have to say everyone has been deeply helpful to us. We couldn't have made it without Jay Servidio and his delightful staff! The design and marketing aspect of the entire process went smoothly. Thanks Jay Servidio and those at Teleteria for making a scary investment a solid one!

John L. - New Mexico

Jay Servidio is an approachable business man who speaks on your level. He doesn't try to impress you with big words or high society ways, no he's down to earth and honest. I didn't know squat about owning my own website or adult turn key business but Jay Servidio has made it easy to run. Any questions or problems I've had they have been responsive in a timely fashion.

They were always on the ball. Everything from the design and marketing to paperwork has been handled in a professional manner. Jay Servidio has done a top notch job of putting together a staff that is flexible and customer service oriented. Not many even worry about that issue! These young pups that start businesses always ask, "what's customer service?" Servidio knows what customer satisfaction and service is and he saw to it that we received the best in the business.

After 7 short months, my casino sites are bringing in around \$7,000 a month each. Can't argue there with that success! Everything has gone smooth as pie! At least I'm not wasting time in front of the computer now days surfing, I'm doing something constructive!

Elena P. - Florida

My husband and I divorced after 18 years of marriage. I hadn't worked outside the home for years as all my work centered on having the perfect home for him and entertaining his business partners and clients in our lovely home. After the divorce I needed to something I could learn to do without having to go back to college or taking a minimum wage job.

I saw Jay Servidio at a trade show in Florida and decided to set up an appointment to meet with him. I was hesitant at first but after reading all the testimonials and actually sitting down with Jay Servidio, I was confident in my ability and his product to do a good job.

I opted to go with an adult turn-key site, anything to embarrass my husband at this point! I was concerned that the learning curve I had would make it difficult for me to be successful. I needn't have worried. Jay Servidio and his highly trained staff worked with me until I was comfortable going off on my own. Everything was executed perfectly – design of site, training on marketing and managing my site, and having someone there to hold my hand whenever I get lost or confused. Jay Servidios staff was there to assist me always.

Only a short 7 months into the ownership of my site and I have made back my investment! How awesome! This business venture has exceeded my goals and expectations. Thanks Jay!

Don A. - New York

I'm a businessman looking to retire soon. My 401K is sufficient to take care of me and my family when I reach the appropriate age, but for now early retirement involves my being creative. I met Jay Servidio after having caught his infomercial. After sitting down with Jay Servidio I realized several things.

Jay Servidio is a good businessman who is knowledgeable of his product and his market furthermore, his business is top rated in the design aspect. I discovered that he runs a superior company. Servidio has a

small staff of highly skilled and talented people. Working with them and Jay Servidio was an excellent experience.

I was cautious going into this business as I had no experience. It was a relief to know that I would not have to learn the process on my own. Marketing is like anything else in owning a business – it's the number one concern. Linking and other marketing tools for adult turn-key sites can be time consuming anyway but having to do it on one's own is overwhelming.

I found Jay Servidios' team of designers and marketing personnel gave me what I needed in order to be successful. I only needed to apply myself. Jay's staff followed up with me weekly even after they had collected my money and I had accepted the site. All the documentation was filed and the site delivered in a highly professional manner. Jay Servidio has delivered on everything he said he would.

I've had my sites now for two years and I couldn't be happier. My gross from the two sites for last year was \$98,000.

It makes retirement a good place to be right now!

Robert G. - Connecticut

I have known Jay Servidio for seventeen years. Long before Teleteria was even a thought! I saw Jay Servidio take an idea and mold it into the company he has today.

From day one Jay Servidio has taken advantage of innovative technology and made a place where any person can own their own website and internet run business. Most owners take a hands off approach when it comes to clients. Jay Servidio is a hands on owner. He and his staff are patient as they work with their clients into selecting the right design and marketing strategy.

Not only are they offering up an excellent opportunity but they are there with you every step of the way. Your goals and needs will be met and you will be encouraged to make your website your own. You want a first class site? Teleteria is second to no one!

During the seventeen years I purchased an adult turn-key site. Teleteria staff have always been on top of any problems we've encountered. The flexibility and skill of the staff is highly professional.

Want to make money? Call Teleteria. Want to learn something? Call Teleteria. Want to have fun? Call Teleteria.

Hal K. - Idaho

Most other web design companies that market adult turn-key websites tend to promote 'one size fits all' designs. They are often plain and cheesy, and burdensome to maintain. Jay Servidio encourages a 'best fit' approach to designing websites.

He listened to what I wanted and then had his designers work with me. Whenever it looked as if I was going to do something that would be detrimental to my business, Jay was there to advise me. I appreciated his care and determination to make my website the best there was in the business. I think Jay Servidio takes this approach with each of his clients.

Teleteria is a class act to work with where each person is professional and helpful. I can't imagine working with any other company.

Having owned my site for the last 4 years, I have brought in on the average \$86,000 per year. I can't complain! This was the best move I have made. I look forward to this year where I know I'll make that average jump by several thousands of dollars!

Stephan R. - Maryland

When I decided to purchase a casino website from Jay Servidio, I had a number of requirements that had to be met.

First, for the users of the site it needed to be user friendly, and since I was going to market globally in different time zones, so we needed to ensure that the site was always available, even while it was being modified. Teleteria's design and handling made this possible ... changing the site in the did not mean disrupting access to a user accessing the site.

Last but not least, I wanted users to be able to leave contact and personal information, while at the same time not being able to collect other people's personal information from the site. Jay Servidio was most helpful in this area as well.

My casino has brought in over \$55,000 and it's only 5 months old! It's easy to play and easy to manage. Jay Servidio told me what to expect and he carried through with it. I can't imagine going to anyone else to design my website.

Thanks to Jay Servidio and his top notch staff I'm going to own my own boat this summer!

Richert P. - Pennsylvania

When I contacted Jay Servidio about owning my own adult site I was impressed that he answered me instead of passing me off to a sales person. The time and attention he gave me was amazing! He answered all my questions and was gracious even when I asked him about the bad reviews he had had on the message boards. Most people would have blown them off but we had a good talk about them. I felt immensely relieved.

His team of designers provided me with excellent service and are on call pretty much 24/7. Not many companies can boast of that! Not only that, but Jay Servidio gave me his ICQ number and his cell phone number. He's but a phone call away if I encounter any problems.

I have recommended Jay Servidio to my friends and I know several are now taking advantage of his services. I know they will be as happy as I am with my site.

In little more than 9 months, I have made back my initial investment and will be buying the house of my dreams next year! How awesome is that?

I can't wait to see the design on my second adult site. This has been such a relief!

Thanks a ton Jay Servidio, you're fantastic!

Michael H. - New Jersey

Jay Servidio and his team of designers at Teleteria are very committed to being the best in the industry. They're job doesn't end once the site is designed. They continue to help you by providing marketing advice to help you increase your sales. Jay Servidio is with you each step of the way.

Jay Servidio offers a 100% satisfaction guarantee on the site design of your website. If you're not happy, you don't have to take it. And just to make sure you continue to be happy, he provides you with the best in marketing strategies.

It's nice to be able to rely on a company that says they'll do something and then have the owner follow through every single step. That is what Jay Servidio does.

I've owned three adult sites now for six years. During this time I have been able to purchase a 4 bedroom home, a new car, and put my daughter through college. Am I happy? Yes! I never once felt left out in the cold. There was someone there every step of the way!

Thanks Jay Servidio!

Brett Q. - New Hampshire

When I met Jay Servidio for dinner one night to discuss the purchase of 3 adult sites and 3 casino sites, he told me, "When people choose my company, my name and reputation are on the line. Your successes and failures are mine just as much as they are yours. That's why my customer service is second to none!"

Jay Servidio spoke the truth that night. The websites I purchased reflect luxury and sophistication that other web designers can not duplicate. I am able to do so much with my site that I couldn't do with others. I looked and researched each one of them and they were all found lacking. Jay Servidio has an excellent track record.

This year, my daughter needs braces and my son is hoping for a mustang. He gets the used Mustang and my wife gets the brand new BMW this year! I purchased a modular home for my mother and one for my sister. I've only had my sites for 2 years and this is awesome! What a money maker for me!
